HOW WE PROTECT YOU

Prevent. Detect. Comply.

Prevention

We expose real-world attack paths before adversaries can exploit them, and stop attacks before they happen.

- CREST Penetration Testing
- Vulnerability Management
- Threat Exposure (CTEM)
- Application Security

Detection

Real-time monitoring, behavioural analytics and proactive threat hunting to find and contain active attacks early.

- 24x7x365 MDR
- Cyber Threat Intelligence
- Incident Response (CIRS)
- Endpoint Protection

Compliance

Governance, risk and compliance specialists who make accreditation your competitive advantage.

- ISO 27001 Consultancy
- DORA & NIS2 Compliance
- Cyber Essentials
- GDPR Compliance

CYBERGEN®
